ABOUT ME

I'm a Computer science student at Fermín Toro University with experience in software developing, the creation and development of websites, web application, landing pages, and functional APIs. Excited about the opportunity to grow and help with my skills.

EXPERIENCE

IT Support

CONETSOFT C.A
2021-2024

Installation and maintenance of computer equipment, installation, configuration, and monitoring of CCTV systems, installation and configuration of alarm systems, and telephone technical support.

Junior Developer

CONETSOFT C.A
2024

During my last year at Conetsoft, I was part of the company's development team as a junior, following instructions in the creation of modules, maintenance and support of the company's ERP system, and management of SQL Server databases.

Transaction Coordinator

Military Veteran Team - LPT Realty
2024 - Present

Responsible for coordinating and overseeing all administrative aspects of real estate transactions from contract signing to closing.
